

VisioRack®
L'agencement du vin

Catalog 2024

VisioRack®

L'agencement du vin

VisioRack offers an original way to present and store wine bottles. Bottles placed on baskets are easily accessible. Labels are always visible. The alignment is perfect.

VisioRack can be configured to fill any available space. The bottles can be presented in many ways, aligned, crossed, in central unit etc ...

All configurations are possible.

VisioRack can be combined with more traditional racking styles to provide additional storage capacity - ideal for single bottles. Individual bottles no longer get misplaced.

VisioPlan baskets hold 2 (N2) or 3 bottles. VisioPlus baskets for 3 bottles can accommodate different bottle formats (Bordeaux, Burgundy, Champagne...) - All bottles sizes align perfectly. For larger bottles, baskets for 2 magnums are available.

All these baskets can be combined and clipped on vertical bars at different levels for optimal easy installation.

VisioBois supports allow the use for VisioRack Free Standing.

VisioBox furniture can easily be combined with VisioBois for wooden wine case of 6 or 12 bottles.

VisioRack Ranges

VisioPlan®
